20 **AMENDMENT AFTER FINAL OFFICE ACTION**

Dear Sir:

25 In response to the Final Office Action dated 7 November 2007, Applicant offers these

Remarks:

REMARKS

30 Examiner has maintained the view that the reference US 6 276 452 (Davis) is pertinent to
Applicant's claims. Moreover, Examiner suggests that the Davis proposal provides the features
of claim 1.

35 Specifically, it is notable that the Examiner contemplates the disclosure of Davis providing
"....a plurality of inlet ports (26) through which the broken up junk passes into a trap (56) for
collection, wherein each projection is located between adjacent inlet ports and wherein adjacent
projections (23) define channels therebetween which are shaped to direct the junk into the
respective outlets.

In this respect, Applicant begs to point out that claim 1, in fact states that "...and wherein
adjacent projections define channels therebetween which are shaped to direct the junk into the
